Săptămâna Educației Deschise în Clubul Cărții

La 30-31 martie în cadrul Clubului Cărții au fost promovate 4 seminarii de informare dedicate acestei săptămâni. Programul a cuprins prezentările:

Educație deschisă: conținut, structură și învățare în MOOCs (Valentina Topalo, șefa Centrului Info-Documentar, Promovarea resurselor educaționale deschise (RED)din Repozitoriul Instituțional ORA USARB provenite de la universitarii bălțeni (Natalia Culicov, șef oficiu), Resurse educaționale deschise on-line disponibile pe platforma website-ului https://www.openeducationweek.org/ (Olga Dascăl, bibliotecar principal

Campania Națională de promovare a Educației Deschise a fost organizată în cadrul parteneriatului între Programul EIFL-OA Moldova și Asociația Bibliotecarilor din Republica Moldova (ABRM), Biblioteca Științifică USARB fiind participantă activă în ambele structuri.

A doua ediție a evenimentului a avut scopul de a prezenta oportunitățile educației deschise, integrarea acesteia în toate formele de educație, fie că este vorba de dezvoltarea cunoștințelor și abilităților ca suport al educației universitare sau preuniversitare ori la locul de muncă pe parcursul întregii vieți. Bibliotecarii universitari bălțeni, integrați deplin în demersul de învățare și cercetare, conectează comunitatea academică la informații și cunoștințe noi, resurse educaționale deschise, sporind nivelul de cultură a informației studenților și cercetătorilor, ceea ce le permite cu o mai mare eficiență să utilizeze documentele tipărite și în format electronic, inclusiv la distanță, îmbunătățind comunicarea științifico-didactică la nivel international.

Erasmus + CBHE Library Network Support Services (LNSS): modernising libraries in Armenia, Moldova and Belarus through library staff development and reforming library services (LNSS), proiect nr 561633-EPP-1-2015-1-AM-EPPKA2-CBHE-JP (2015-2018)

The role of the teacher-librarian who promotes the Basic of Information Literacy Skills course has changed from a knowledge transmitter to a learning facilitator or mentor who is responsible for creating interactive learning environments.

Librarians use advanced technologies, eLearning courses, educational platforms, video slots, Kahoot knowledge rating software, Hypersay product - a solution for interactive presentations in Power Point, Creating online tutorials in Loom - Free software for screen and video recording .

**USARB has several blogs: Library Dialog with User http://bs-usarb.blogspot.com/p/foto.html;
BIN Blog - Northern Educational Libraries - addressed to over 600 librarians from schools, high schools, vocational schools, colleges); http://filialabrmbin.blogspot.com Professional Librarians Blog https://bsusarbprofesional.blogspot.com, Blog of the Romanian Information Center https://cirbalti.wordpress.com**

Students training in the Basic of Information Literacy course, Licentiate / Master's / PhD Month;

Ensuring access and the promotion of databases to all users;

Creating own electronic collections/databases: Institutional Repository - about 3,000 titles; electronic catalog - more than 420 thousand records; Scanned Summary - 62,000 titles of articles of 277 books and 810 magazines, recordings, music works in MP3 ; Digital Library; Magazines edited by the Balti academics;

Promotion of academics works by indexing them in databases and open international;

Developing IT exploration skills and the research skills of school librarians, vocational schools and colleagues from 15 districts in Northern Moldova and Balti municipality;

The European Research Area (ERA) ensures the exchange of ideas and knowledge across Europe. This approach promoted by Horizon 2020 will ensure that every euro spent for strategic research will have a good impact. Our project fits perfectly into the objectives of Horizon 2020. It suggests using the opportunities offered by libraries. They will find a safer market easier to promote their researchers and gain new knowledge from the databases that can now offer the university library.

Opening to a world is done through a common catalog of academic libraries in Moldova, of which SL USARB is part of this catalog http://primo.libuniv.md/. The USARB Scientific Library provides access to open databases, including subscriptions to EBSCO, Springer, Moldovan law; promotes USARB open access policy registered in ROAMP, develops open research archive for Institutional Repozitory - ORA USARB http://dspace.usarb.md:8080/jspui (so far 2018 documents have been registered), this being integrated in ROAR space, DURA. The Scientific Library has incorporated 1829 scientific papers (teachers and librarians) into open libraries and open platforms ZENODO, Open Library, CALAMEO, SCRIBD, ISSUU.

Each EU country is responsible for its own education and training systems. EU policy is designed to support the national approach to common challenges, including education, research, competitiveness and technological developments.

Achieving lifelong learning and mobility, improving the quality and efficiency of education and training, promoting equity, social cohesion and active citizenship, increasing creativity and innovation, including entrepreneurship at all levels of education and training - all of which can be realized with the contribution of the efficient and complex university library, as well as the work that takes place in Balti with the implementation and planning of the project within the Erasmus + program.

The products created - IR ORA USARB, the Digital library, USARB magazines on the SL site, the BIL course on the site, the tutorials, the Ex-Libris Primo electronic catalog, the recent acquisitions bulletins, on-line information and thematic exhibitions; access to more than 100 databases, bibliographic services - all contribute to distance learning, to the continuing professional development of real and potential users.

We believe that the support and training we have had from the international experts in Ireland, Romania, Greece, Germany, has largely influenced the good progress and success of the Project.

Enhance the quality of studies by providing access to a wide range of databases, quality information resources; by training users on the Information Literacy; qualified librarians; improving the content and tools provided; the diversification of services in this project directly contributes to the development of modernized services, the reforming of libraries and the increase of the qualification of librarians.

This Project directly contributes to the development of modernized services, the reform of libraries and the enhancement of the qualifications of librarians. Today, in SL USARB 92% of librarians received proficiency degree, including 51% - the higher category. These teach the users providing them with quality conditions and information to be competitive on the EU market.

10 years will take place the NAD event- a marketing activity through which librarians, in partnership with the Rectorship, Faculties, the libraries of the national system, REM Consortium contributes to raising public awareness on libraries - the millennial treasures of civilization that change under the influence of internal and external factors, but remain always important and useful to society.
