# INFORMATION NEEDS

## Why do we read? Why do we inform?

- To keep up with everything new
- To find answers to specific questions
- To fill some gaps in knowledge

**More important than having information is knowing where to find it**

*(Samuel Johnson)*

# SOURCES OF INFORMATION

- 1) Personal library / Internet (search engines, social networks, directories, portals)**
- 2) Specialist Consultation**
- 3) Libraries Consultation , specialized centers for the storage and distribution of information**
- 4) Databases Individual consultation**

# INFORMATION EXPLOSION

## Information-saturated world

- globally mobile devices have exceeded their population
- 50% of users check their emails before bedtime
- 70% sleep with the phone together
- the number of on-line contacts (especially through social networks) doubled every 9 months
- we are on average 5.30 hours online  
2.7 billion inhabitants have access to the Internet

## INFORMATION DATA

- The term „computer science" appeared in France in the early 1960s by the juxtaposition of two words: information automatique (informatique), which means "automatic processing (without the direct participation of man) of the information"
- What is the Internet? The Internet is a global network that includes a vast collection of information and resources available through the computer. It was created in 1989 by the UK physicist Tim Berners-Lee while working at the European Particle Physics Laboratory (called CERN after its French initials Conseil Europeen de Reserches Nucleaires) in Switzerland, as an easier way to access information scattered across the internet.
- **WWW (also called the web) means** Collection of internet resources (such as FTP, telnet, Usenet), hyperlinked text, audio, and video files, and remote sites that can be accessed and searched by browsers based on standards such as HTTP and TCP/IP.

**The Web contains at least  
4.61 billion pages  
(September 13, 2017).**

**Библиографическое описание:** Academicianul Nicolae Filip: Biobibliografie. / Min.Educației, Tineretului și Sportului al Republicii Moldova, Univ. de Stat "A. Russo", Bibl. Șt.; alcăt. : E. Scurtu, M. Fotescu, K. Tabac, F. Tlehuți ; coord. V. Cabac, red. resp. E. Harconița; ed. îngrijită de Gh. Popa; trad. în lb. engl. de L. Aladin, în lb. rusă de F. Tlehuți. – Ed. a 4-a, red. și compl. – Bălți, 2005. – 199 p.

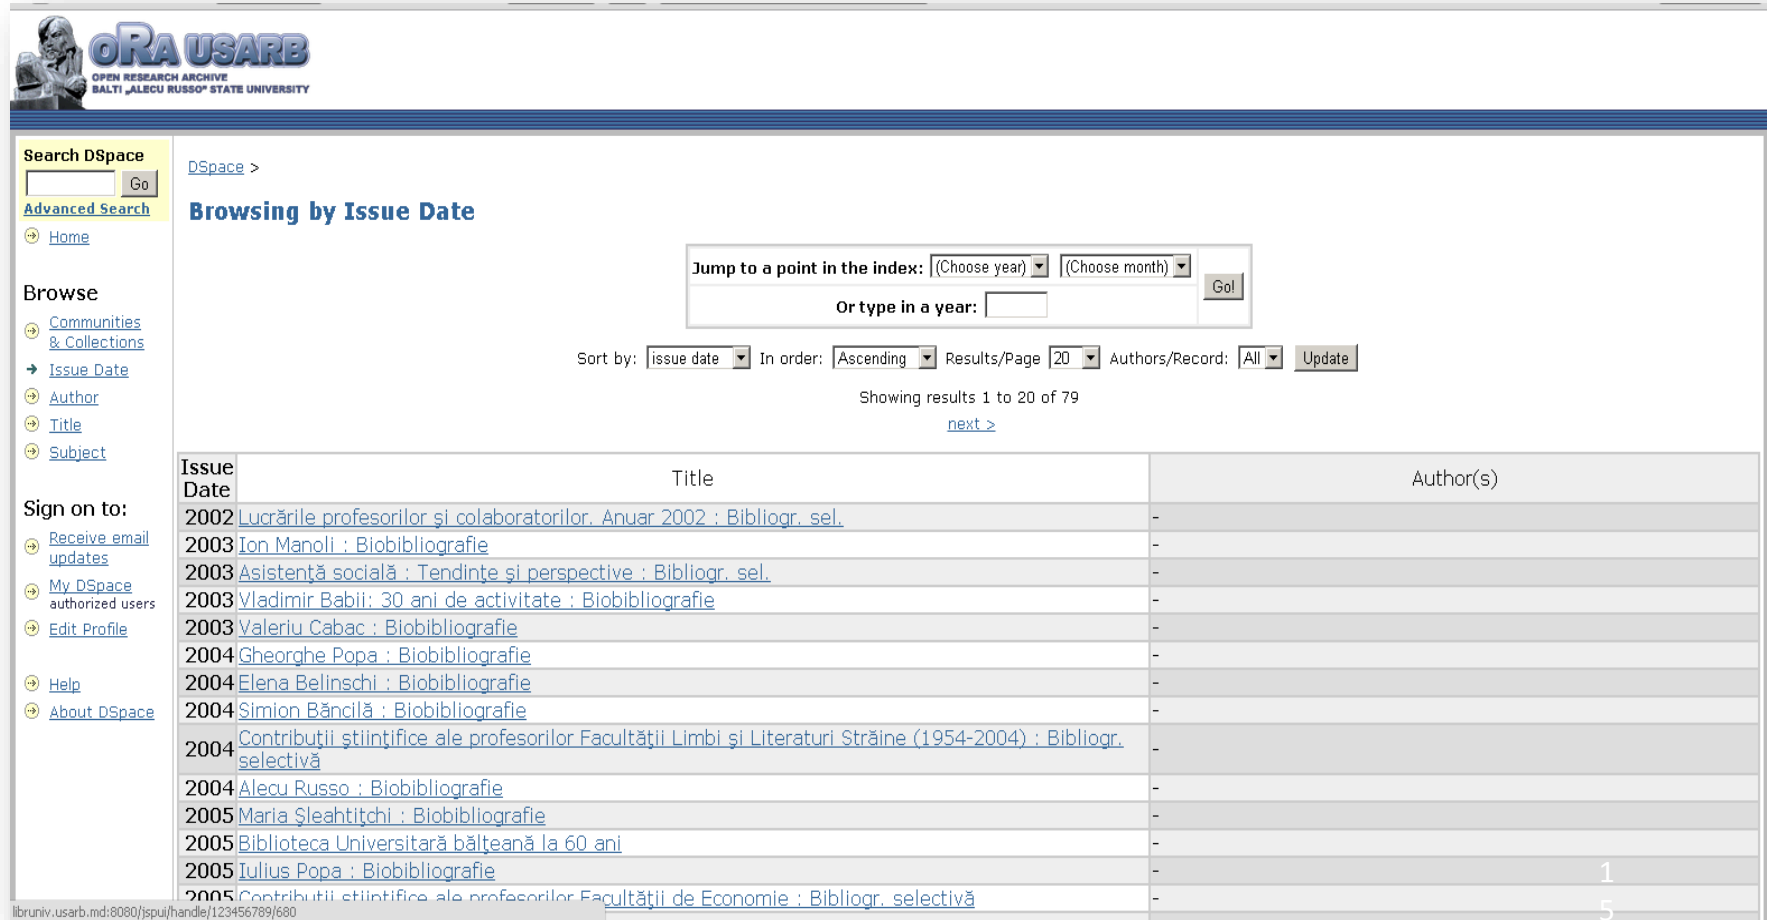

**Краткий обзор (реферат):** Prezenta lucrare (4-editie), revăzută și completată, apărută la a 80-a aniversare a Universității, este dedicată rectorului Nicolae Filip cu prilejul celei de-a 80-a aniversări din ziua nașterii și se înscrie în colecția Personalități universitare bălțene, inițiată acum 3 ani de directorul Bibliotecii Elena Harconița. Lucrarea beneficiază de un articol introductiv semnat de prof. univ. dr. Valeriu Cabac, în care sînt evidențiate calitățile deosebite ale Omului, Savantului, Profesorului și Rectorului Nicolae Filip, personalitate notorie, fondatorul clasicului complex universitar bălțean – o veritabilă operă de ctitorie. Curriculum vitae oferă date importante despre formarea și creșterea profesională, domeniile de cercetare, participarea la manifestări științifice, funcțiile administrative deținute și distincțiile de care s-a învrednicit dl Nicolae Filip pe parcursul a peste cincizeci de ani de activitate științifică - didactică și a douăzeci de ani de "rectorie". Capitolul Amintiri. Confesiuni propune "filmul" unei exemplare cariere de profesor universitar și al unei nu mai puțin spectaculoase cariere științifice. Un alt compartiment îl constituie Aprecierile Personalității Academicianului Nicolae Filip din partea unor reprezentanți ai culturii și științei universitare. Lucrarea înserează o iconografie bogată despre etapele vieții și activității academicianului Nicolae Filip, Personalitate de Excepție a secolului XXI, alături de alte 2000 de personalități marcante ale sec. XXI, consemnate în Outstanding Scholars of the 21 st Century, Cambridge, England, 2002. Circa 200 lucrări științifice, 6 monografii, 65 de articole, 25 de referate, 15 rapoarte științifice, zece de cursuri universitare sînt inventariate în compartimentul respectiv de bibliografie. Conține texte în limbile română, engleză și rusă. Lucrarea se încheie cu un index de nume și de titluri.

# ZENODO Repository

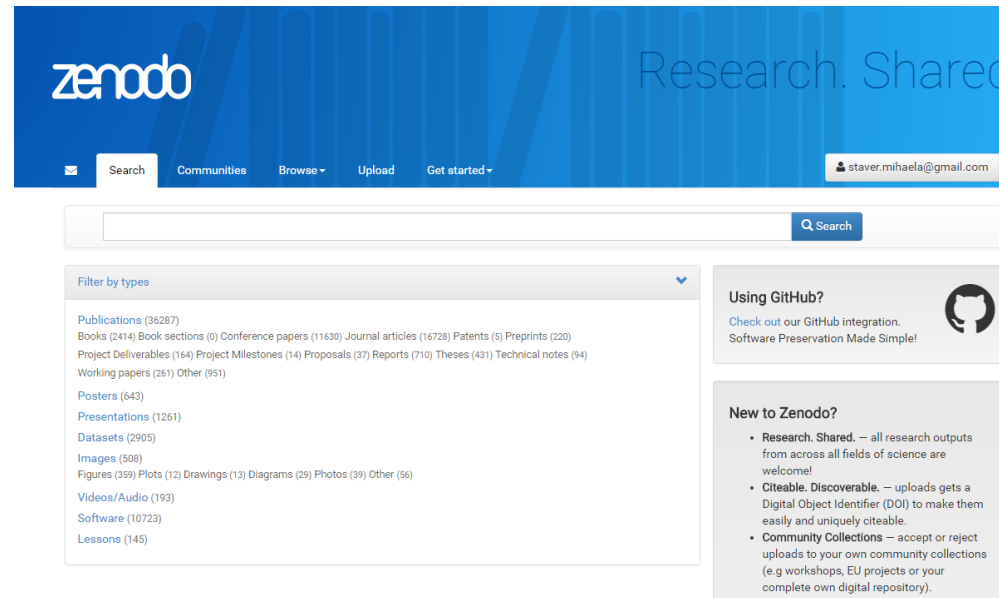

# ZENODO

<https://zenodo.org>

Zenodo is derived from Zenodotus, the first librarian of the Ancient Library of Alexandria.

Zenodo is a simple and innovative service that enables researchers, scientists to share, store and present the results of multidisciplinary research (data and publications) that are not part of the institutional archives.

The screenshot displays the Zenodo website interface. At the top, the Zenodo logo is on the left, and the tagline "Research. Shared." is on the right. Below the logo is a navigation bar with links for "Search", "Communities", "Browse", "Upload", and "Get started". A user profile dropdown menu is visible on the right side of the navigation bar, showing the email "staver.mihaela@gmail.com". Below the navigation bar is a search bar with a "Search" button. On the left side, there is a "Filter by types" section with a dropdown arrow. The filter list includes: Publications (36287), Books (2414), Book sections (0), Conference papers (11630), Journal articles (16728), Patents (5), Preprints (220), Project Deliverables (164), Project Milestones (14), Proposals (37), Reports (710), Theses (431), Technical notes (94), Working papers (261), Other (951), Posters (643), Presentations (1261), Datasets (2905), Images (508), Figures (359), Plots (12), Drawings (13), Diagrams (29), Photos (39), Other (56), Videos/Audio (193), Software (10723), and Lessons (145). On the right side, there is a "Using GitHub?" section with a GitHub logo and a link to "Check out our GitHub integration. Software Preservation Made Simple!". Below that is a "New to Zenodo?" section with a list of bullet points: "Research. Shared. – all research outputs from across all fields of science are welcome!", "Citeable. Discoverable. – uploads gets a Digital Object Identifier (DOI) to make them easily and uniquely citeable.", and "Community Collections – accept or reject uploads to your own community collections (e.g workshops, EU projects or your complete own digital repository)."

Zenodo is a European research data repository, opened by the European Council and provides research, educational and informational content. The European project is funded by CERN and the European Commission through OpenAIRE.

Zenodo welcomes the loading of research data from any person, institution, scientific or research community, and allows researchers, scientists, to share research results.

Zenodo was launched in May 2013 and updated in September 2016.

## A registered user can upload one or more files.

The image shows a screenshot of the Zenodo website's upload interface. At the top, there is a navigation bar with icons and labels for various file types: Publication, Poster, Presentation, Dataset, Image, Video/Audio, Software, and Lesson. Below this, a laptop screen displays a green box with the text "What we can load in the ZENODO repository?" and "Any file types:". To the left of the laptop, four colored callout boxes point towards the screen, listing uploadable content: "Books,articles" (grey), "Conferences, reports, posters" (green), "Patents, theses" (teal), and "Presentations, images, video" (light green). Below the laptop, a paragraph explains the metadata and DOI assignment process.

What we can load in the ZENODO repository?  
Any file types:

The document is labeled with some simple metadata and then is published in Zenodo, assigning DOI (Digital Object Identifiers).

Files, documents are controlled by the owner by choosing one of the four access rights options:

Access model	Description
<b>Open</b>	All files are downloaded immediately from the public folder for upload.
<b>Embargo</b>	All files can be downloaded after an embargo set by the owner.
<b>Restricted</b>	Other users may request access to the files from the original owner via Zenodo.
<b>Closed</b>	Other users can only see metadata for the record.

# What does ZENODO offers?

Zenodo offers the following basic functionalities:

- 1 GB of available space;
- A searchable database;
- Automatic assignment of a DOI to different digital objects.
- The Zenodo platform enables researchers to upload their data in sets and a DOI is assigned to each set;
- Simple upload of documents through its integration with Dropbox;
- A rich interface for linking objects together (eg funding information).

A screenshot of the Directory of Open Access Journals (DOAJ) website homepage. The page has a white background with an orange header and navigation bar. The header contains the DOAJ logo and the text "DIRECTORY OF OPEN ACCESS JOURNALS". The navigation bar includes links for "Browse Subjects", "Apply", "News", "About", "For Publishers", and "API". A "SUPPORT DOAJ" button is located in the top right corner. The main content area features a search box with the text "Search DOAJ" and a search icon, along with checkboxes for "journals" and "articles" and a link to "[Advanced Search]". Below the search box is a section titled "Directory of Open Access Journals (DOAJ)" with a brief description: "DOAJ is a community-curated online directory that indexes and provides access to high quality, open access, peer-reviewed journals." The "Latest News" section includes a headline "Walt Crawford updates his analysis of DOAJ data" and a short paragraph of text. The right sidebar contains statistics: "9,187 Journals", "6,375 searchable at Article level", "130 Countries", and "2,274,022 Articles". It also lists links for "FAQs", "Interacting with DOAJ", "Open Access Information", "Best Practice", "Download metadata", and "New Journals Feed". At the bottom of the sidebar are links for "Our members", "Our publisher members", "Our sponsors", and "Our volunteers". The footer of the page includes social media icons for Facebook, Twitter, LinkedIn, Google+, and YouTube, along with a link to "The Redalyc JATS project strides towards standardisation." and a short paragraph of text.

O MODEL MUSICOSOFIC DE CUNOAȘTERE MUZICĂ ȘI VIAȚĂ  
UN MOD MUSICOSOFIC DE CUNOAȘTERE MUZICĂ ȘI VIAȚĂ

**Autor (i):** Ion Gagim  
**Subiect (e):** Muzica  
**Publicat de:** Editura Artes a Universității de Arte »George Enescu« din Iași  
**Cuvinte cheie:** filosofie a muzicii; sunete active; muzica școală  
**Rezumat / Rezumat:** Problema abordată abordează fenomenul muzicalofiei (muzica latină, Gr. Sophia, adică "înțelepciunea muzicii", un concept conceput, lansat și materializat de George Balan, un muzicolog, filozof și om de cultură) în mai multe ipostaze primare: a) un concept filosofic al muzicii, tratat ca un fenomen spiritual, cu sensuri supreme în construirea ființei umane; b) un concept de muzicologie care evidențiază ascultătorul pentru care muzica este, de fapt, creată și care este considerată "al treilea fondator" al acesteia. "Musicosophia" subliniază statutul și locația specială a ascultătorului în chiar actul de comunicare muzicală, subliniind importanța sa ca un factor major în existența muzicii și a funcționării ei culturale și sociale, c) un concept muzical și pedagogic cu principii și metodologii specifice care vizează antrenarea abilităților muzicale "active", "conștiente", "de cercetare" și "meditative" care duc la înțelegerea profundă a mesajului artistic și a artei sunetelor d) o instituție cu acest nume este situată în Sankt Peter, un oraș din Pădurea Neagră, Germania. Muzica vine nu numai pentru a încânta sau a informa o persoană, ci a transforma-o și a o ridica la sublim. Conform caracteristicilor sale, și urmând o astfel de abordare, muzica se transformă într-o formă mai înaltă de cunoaștere a ființei umane și a vieții. "Cunoașterea prin identificare", aplicată de școala din Musicosophia, conduce la crearea unui nou tip de experiență, la un nou mod de gândire, la dobândirea unei înțelepciuni mai înalte (prezentă în muzică), la practicarea,

The **Central and Eastern European Online Library** (CEEOL) is a repository of full text indexed documents in the fields of Humanities and Social Science publications from and about **Central and Eastern Europe**. The collections include native language sources from and about Central, East and Southeast Europe's humanities and social sciences in the form of journal articles, eBooks and Grey Literature.

[https://en.wikipedia.org/wiki/Central\\_and\\_Eastern\\_European\\_Online\\_Library](https://en.wikipedia.org/wiki/Central_and_Eastern_European_Online_Library)

Since April 2017, the USARB Scientific Library has been registered in the CEEOL database as a publisher, which allows him to index on this basis the scientific journals published by USARB. Two titles of Bibliographic Confluences and Art and Artistic Education have been indexed at this time.

Currently not available to the general public

Holographic communication allows a group of people equipped with HoloLens and some specialized cameras to communicate as if they were in the same room. Communicating and interacting with remote users are as natural as face to face communication.

## Web site of the Scientific Library of Alecu Russo Balti State University

The Scientific Library was connected to the Internet in 2001 following the implementation of the "Extending Access to Information" Project, supported by SOROS Foundation, through which they entered the 4 PC Library, a performant server and the connection to INTERNET (15 workstations).

As a result of connecting to the Internet in March 2001, the first version of the Library's Web site was launched. In 2007 the Library website was re-launched in a new version: <http://libruniv.usarb.md>, which is always subject to change, including another version of the page was released this year.

At present 97 Internet stations are connected to the Internet: in Mediateque, Bibliographic References, United Nations and European Union Centres. and in the reading rooms . Every year, students and teachers make over 20,000 Internet sessions.

This article focuses on **business** estate planning. It will provide a general overview of the **business** estate planning process for both family owned **businesses** and closely held **businesses**. Topics of discussion include **business** estate planners and advisers, **business** estate planning goals and objectives, the connection between Internal Revenue Code and **business** estate planning, and succession planning. The issues associated with post-mortem **business** estate planning will be addressed.

Business Estate Planning Objectives & Goals

Internal Revenue Code & Business Estate Planning

In the United States, small **businesses**, which characterize the majority of closely held **businesses** (CHB) and family owned **businesses** (FOB), drive the economy. According to a 2014 report by the Small **Business** Administration, 99.7 percent of U.S. employer firms were classified as small **businesses** with fewer than 500 employees in the first decade of the twenty-first century, and of the 27 million small **business** in 2011, about 75 percent were nonemployer firms (sole proprietorships, partnerships, and incorporated **businesses**). Despite the strength and power of small closely held **businesses** and family owned **businesses**, numerous small **businesses** do not survive the transition from first- to second-generation ownership and management. When a **business** owner dies or retires, the **business** may be liquidated, continued, or sold to family, employees, or outside party. Small **businesses**, both closely held **businesses** and family owned **businesses** require successful **business** estate planning to survive the transition from first- to second-generation ownership (Grassi, 2007).

**Businesses**, including closely held **business** and family owned **business**, require estate planning to control the direction and future of the firm at the time of an owner's death or retirement. **Business** estate planning refers to the minimization of estate or transfer tax as well as active succession planning undertaken when transferring a family owned **business** or closely held **business** to the next generation. Small **businesses** are all at risk for failure when the **business** owner dies or retires. For example, the lack of a clear

The database is accessed from the Scientific Library website - the icon at the right side of the page: <http://libruniv.usarb.md>, from any computer connected to the University's network, because access is based on IP, without the introduction of a passwords.

The screenshot displays the website's interface. At the top, a navigation bar includes links for 'Acasă', 'RESURSE', 'INFORMAȚII UTILE', 'NOUȚĂȚI', 'SERVICII', 'CERCETARE', 'DESPRE NOI', and 'HARTA', along with a search box. Below this is a banner for exhibitions with titles like 'Tematica expozițiilor pe... Zilele Tineretului și Stud...', 'Profesorul Ion Gagim pe... Boris Dubosarschi (03 f...)', and 'Calendar LNSS 2018 (L...)'. A 'MISIUNE' section follows, describing the library's role in supporting university education. The sidebar on the left contains links to 'ExLibris Primo Catalog', 'BIBLIOTECA DIGITALĂ', 'REVISTE USARB', 'BAZE DE DATE', 'REPOZITORIU', and 'PARTENERII NOȘTRI'. The main content area features an 'Acasă' section with a 'DATABASE' icon, a photo of a group of people, and news items such as 'Evenimentul profesional al anului la Bălți' and 'Elena Harconița, director BȘ USARB, la ciclul de reuniu'.

**CĂRȚI ANIVERSARE ÎN ANUL  
2017**

„Tot ceea ce a făcut, a gândit, a câștigat și a fost omeniirea se păstrează în chip magic în paginile cărților. Ele conțin încredințată înțelegerea și credința în viață și în om, în lume și în tot ceea ce este posibil și în tot ceea ce este necesar.”
